# 41<sup>st</sup> World Continuous Auditing and Reporting Symposium

Sponsored by Rutgers University and AECA (Asociación Española de Contabilidad y Administración de Empresas), this unique event brings together practitioners and academics from around the world, who share tactics for overcoming challenges and seizing opportunities in today's shifting business landscape. The 41<sup>st</sup> World Continuous Auditing & Reporting Symposium (41 WCARS) will be held at University of Huelva, Spain on 9-10 November 2017.

This conference is the leading forum for the discussion of research and practice into the application of technology to auditing and reporting. The conference alternates between US (Rutgers 1998-2017) and non-US locations, with previous non-US conferences held in Monaco (2004), Malta (2005), Sao Paulo, Brazil (2006-2017), Ferrara-Italy (2007), Crete-Greece (2008), Thessaloniki-Greece (2009), Malatya-Turkey (2012), Brisbane-Australia (2013, 2016), Reykjavik-Iceland (2014) and Chengdu-China (2014).

Papers and presentations from prior conferences can be found at

<http://raw.rutgers.edu/wcars.html>

Academic papers, presentations, and proposals for panels are sought for 41 WCARS with the participation of academic researchers, practitioners, vendors and implementers of new accounting related technology particularly encouraged.

The conference is open to any innovative idea relating to IT-enabled auditing and reporting, including, but not limited to:

- ▶ *Artificial Intelligence*
- ▶ *Audit Analytics and Business Intelligence*
- ▶ *Big Data*
- ▶ *Blockchain and Smart Contracts*
- ▶ *Continuous Assurance*
- ▶ *ERP and other Data Management Technologies*
- ▶ *Internet of Things*
- ▶ *Social Media*
- ▶ *Supervised and non-Supervised Machine Learning Methods*
- ▶ *Text and Voice Mining*
- ▶ *The Audit Data Standard*
- ▶ *XBRL*

Please contact Professor Enrique Bonsón with presentation proposals by August 30th, 2017.
